9:00 AM – 10:00 AM	<p>KNOW THY ENEMY: NAVIGATING THE PRODUCING PARTY'S EDISCOVERY PROCESS?</p> <p>Using the EDRM model, this session will delve into the process a party undertakes to identify relevant sources of information, preserve and collect it, process it, review it (for responsiveness and privilege), and produce it. The session will foreshadow technical issues relevant to ESI protocol negotiations, such as directories provided in a production, what processing entails, and the creation of privilege logs using automated processes. Additionally, this session will provide context for our interactions with a party during this process, including disclosures of custodial and data sources, preservation issues, collection with hyperlinks, electronic search negotiation, privilege protocol negotiation, production specifications, and related disputes.</p>	Grove Ballroom Section 1 & 2

<p>10:00 AM – 11:00 AM</p>	<p>ANATOMY OF AN ESI PROTOCOL</p> <p>This rapid-fire session will walk participants through the typical components of an ESI protocol, explaining what each element means and why it matters. We'll cover topics such as decompressed compressed files, password-protected files, the importance of time zone selection, Bates numbering conventions, and more.</p>	<p>Grove Ballroom Section 1 & 2</p>
